SP2000: High Volume Sump Pump

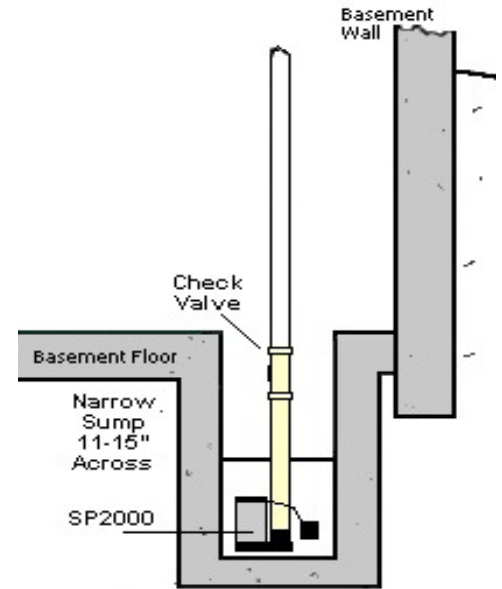

MODEL SP2000

Features/Advantages

- Corrosion-resistant construction.
- Stainless Steel motor casing, shaft, and fasteners.
- Glass-filled thermoplastic impeller and casing.
- Bearings: Upper and lower heavy duty ball bearing construction.
- Motor is permanently lubricated for extended service life and is powered for continuous operation.
All ratings are within the working limits of the motor.
- Complete unit is lightweight, portable and compact.
- Power cord: 10 feet long, Heavy duty with 3-prong plug.
- Built in thermal overload protection with automatic reset.
- Float Switch: Piggyback wide angle tether type.
- Agency listings: UL & CSA Approved
- One year warranty.

Pump Applications

- The SP2000 is a high volume pump that will evacuate the sump pit quickly. Ideal for retrofitting into existing sump pits with piping and check valve included.
- The pump can operate continuously when completely submerged without burning out.
- The tether float design gives you the flexibility of adjusting the pump depth.

Product Specification

Service Requirements

- 1/3 HP, 115V, 60Hz, single phase, 3400 RPM, 3.0 amps
- Minimum circuit breaker, 10 amps

Pumping Rates

- 2,000 GPH @ 9' discharge
- 2,500 GPH @ 5' discharge
- Maximum head: to 30 feet

Dimensions:

- Pumping range: 6"
- Minimum basin diameter: 12"
- Size: 8" Long, 6" Wide, 10" High
